MONTHLY REPORT FOR THE MAP LIBRARY DIVISION

June 1958

1. The Reference Branch serviced 1140 map requests with 24,359 sheets, and 132 requests for related geographic and cartographic publications with 515 items. The Place Name Desk filled 132 requests. Miscellaneous information requests totalled 214. Although fewer requests for maps were received in June than in May, more research was required to fill them, and a larger percentage came in on a rush basis. Saturday services during the month were required by the DCI, SR, and the White House Staff. One large request from SR required the overtime work of three persons, one from the Reference Branch, to select and pull the desired material for the Monday deadline. Shipments of material forwarded to Vital Storage totalled approximately 1500 maps and 75 publications. Five trips were made to Vital Storage during the month to file map materials. A large backlog, [redacted] remains to be filed. 25X1
